

Early Years SLT Training Course 6: Creating Communication Supportive Environments in the EYFS: Making your setting accessible for communication - SESSION 1

Overview: A practical introduction to creating a learning environment in the early years that supports listening, speaking, understanding and communication with others through looking at the physical and learning environment, the use of visuals and routines. **Please note, this course consists of 2 half day sessions. Participants must attend both sessions.**

Suitable for: Class teachers and early years practitioners/managers.

Key learning outcomes from this course:

- ★ Develop an understanding of the impact of the physical environment in supporting children's communication skills
- ★ Learn about practical strategies and resources for supporting all children's communication through making modifications to the Early Years environment
- ★ An opportunity to network with EYFS services
